

Cookie policy

lebacify.com/en/cookies · Version 2026-09-12

Last updated: 12 September 2026

This policy explains which cookies and similar technologies lebacify.com uses. It supplements our [privacy policy](#). The controller is [Ariamax](#) (KvK 42005482, BTW NL005427752B87).

1. Your choice

When you first visit, a banner asks whether we may use non-essential cookies. Analytics and advertising cookies are set **only after you choose "Accept all"**. "Reject non-essential" leaves you with essential cookies only. You can change your mind anytime by clearing this site's data in your browser — the banner will appear again on your next visit.

2. Essential cookies

These are required for the site to work and need no consent:

Name	Purpose	Lifetime
lebacify-consent (<i>localStorage</i>)	Remembers your cookie choice	Until cleared

The Lebacify web app keeps you signed in using your browser's storage on the app's own domain; no sign-in cookies are set on lebacify.com.

3. Analytics cookies (consent required)

With your consent we use **Google Analytics 4** (Google Ireland Ltd.) to understand how the site is used — pages visited, approximate location, device type. IP addresses are truncated by Google before storage.

Name	Purpose	Lifetime
_ga	Distinguishes visitors	2 years

Name	Purpose	Lifetime
ga*	Keeps session state	2 years

4. Advertising cookies (consent required)

With your consent we use **Google Ads** conversion measurement to see whether our ads brought you here and whether they were useful. This may involve cookies set by Google on google.com domains.

Name	Purpose	Lifetime
_gcl_au	Stores ad-click information for conversion measurement	90 days

Consent signals are passed to Google via Google Consent Mode v2: without consent, Google tags receive a "denied" signal and set no cookies.

5. More information

How Google uses data: policies.google.com/technologies/partner-sites. Questions about this policy: contact@ariamax.nl.
